Results-driven Product Manager and QA Engineer with a robust background in frontend development and a passion for delivering high-quality digital products. Demonstrated expertise in manual testing, user-centric product design, and cross-functional team collaboration. Adept at defining product roadmaps, gathering and analyzing requirements, and ensuring the end-to-end quality of software solutions. Experienced in both Agile and Waterfall methodologies, with a keen ability to bridge the gap between business needs and technical execution. Proficient in implementing innovative QA strategies, leading testing initiatives, and driving continuous improvement across the software development lifecycle. Enthusiastic about exploring new technologies and methodologies to enhance productivity, usability, and performance.
